Notes on UK calling

Calls within the UK only are calls made or received in England, Wales, Scotland or Northern Ireland. As you'll know, the Channel Islands and the Isle of Man are not part of the UK. That means that, although customers of networks there will have a telephone number starting with 01, 02, 03 or 07, calls to those numbers from the UK will be classed as an EE Roaming Zone.

Which calls and text messages to UK mobile numbers are included in my allowance?

Calls and texts to many of the most popular UK mobile numbers are included in your allowance. Inclusive calls currently include (but are not limited to) calls to the UK mobile numbers allocated to the national UK GSM cellular network operators EE, T-Mobile, Orange, Three, O2, and Vodafone. On this plan, calls to one of the mobile virtual network operators (MVNOs) exclusively using numbers allocated to these UK GSM cellular network operators (e.g. Virgin, Tesco, Lebara) are also included, as well as calls to most other MVNO number ranges, such as those currently allocated to LycaMobile.

Which calls and text messages to mobile numbers are excluded from my allowance?

Calls and texts to some numbers starting 07 are not included in your allowance. Excluded mobile numbers include (but are not limited to) numbers used to provide call forwarding services, as well as to some MVNO number ranges.

For a full list of 07 number ranges that are not included in allowances please visit the 'help' section of our website, ee.co.uk We may add numbers to the list of excluded mobile numbers from time to time at our discretion.

Please also note that if you are calling someone who has taken an excluded mobile number to another operator, calls to that number may still be excluded from your allowance.

Calls from the UK to anywhere outside the UK are excluded from your allowances. Standard international calls rates apply to such calls.

What happens if my call or text messages to mobile number are excluded from my allowance?

You can still make calls and text messages to UK mobile numbers that are excluded from your allowance. However, you can't use your allowance towards these calls. You will simply be charged the standard mobile call rate for your price plan.

Are all 07 numbers UK mobile numbers?

It is important to note that not all numbers beginning with 07 are mobile numbers. 070 numbers are used for 'follow me' services and are not mobile numbers. 076 numbers are used for paging services. Some 07 numbers are used for call forwarding services. Calls to these numbers are not included in allowances; visit the 'help' section of our website, ee.co.uk

Data

You'll need 3G or 4G coverage to use mobile internet on your phone and a compatible device. You can only use mobile internet on our 4G network if you're within a 4G enabled area and in range of a 4G base station. Your 4G phone may not be compatible with any 4G network outside the UK. You can check your 3G and 4G coverage at ee.co.uk/coverage

For further information on terms and conditions please see 'Non Standard Price Guide'. Non Standard Price Guide also includes the prices and legal stuff for all our other additional services, like using your phone abroad if you don't get an inclusive roaming allowance and calls to premium rate numbers.

General

- A text message consists of up to 160 characters. If you send a longer message, to a number excluded from your allowance, you will be charged for two or more text messages as appropriate
- You can get an estimate of your out of allowance usage by calling 150 or by visiting MyEE. If there is a difference between the account services estimates and the amount shown on the bill, the latter takes precedence
- Charging starts when a call is answered by a person or an answering device
- Diverted calls are charged at the standard landline rate, or if appropriate, the relevant mobile or special number rate. Diverted calls are not included in your inclusive allowance
- On the bill, for pay monthly customers the charge for each call is rounded to the nearest tenth of a penny. The total of each of the sub- categories of 'call charges' and 'other usage charges' will be rounded to the nearest penny on the bill, then added together before VAT is added to this final figure. All chargeable calls will be subject to a 1 minute minimum charge unless otherwise stated
- When you join an EE pay monthly plan, you should be sent your first bill within two weeks of becoming a customer. Your first months charge will be proportionate to the number of days from your date of joining to the end date of your bill
