- Calls made within your allowance are charged on a per second basis.
- Calls & text messages to certain MVNO ranges and call forwarding services are not included in your allowance. A pre call announcement may be heard prior to call connection. Text messages are charged at 15p per message. See 'points to note' for more information.
- Unless otherwise stated, a one minute minimum call charge applies. Thereafter calls are charged on a per minute basis.
- Calls to some charity helplines (e.g. Childline) are free to call and will not be deducted from your allowance. For a full list please visit the help section of our website ee.co.uk
- Call charges vary depending on the time of your call as well as other optional selections that you may choose. Charges apply to calls made to 150 as well as alternative longer numbers. You will be notified of call costs and have the option to end the call at that point without incurring any charge. Please see our 'Non-Standard Service' brochure for further details and for definitions of our "normal working hours" and "extended working hours".
- Call divert is included in your allowance where the diverted to number would have ordinarily been included in your allowance. Standard call rates apply to outside of allowance calls.

If you exceed 1GB of data above your monthly data allowance, you will be charged £20 for an additional 1GB (on top of the 250MB bundles). This is subject to a daily fair usage allowance of 25MB, and a monthly download limit of 500MB. 25MB provides enough data for normal levels of email usage and browsing. Please note, should you regularly exceed the 25MB daily fair usage allowance and as a result, you reach your 500MB limit before the end of the monthly period, network protection controls may be applied to your service. This may result in a reduced speed of transmission.
- Please see ee.co.uk/calling for a list of Service Charges
- Voicecalls are charged on a per minute basis.

Mobile Internet: A daily flat rate of £1 per day applies for out of bundle data usage. This is subject to a daily fair usage allowance of 25MB, and a monthly download limit of 500MB. 25MB provides enough data for normal levels of email usage and browsing. However, for customers who are planning to download and stream data we would recommend that you take up one of our 500MB or 1GB data bundles. Please note, should you regularly exceed the 25MB daily fair usage allowance and as a result, you reach your 500MB limit before the end of the monthly period, network protection controls may be applied to your service. This may result in a reduced speed of transmission.

Tethering: A daily flat rate of £1 per day applies for out of bundle use. If you're on a plan that includes mobile internet and tethering, you'll pay £1 a day if you use tethering and £1 a day if you use mobile internet for out of bundle use. This is subject to a daily fair usage allowance of 25MB tethering. Please note, should you reach your 500MB limit before the end of the monthly period, network protection controls may be applied to your service. This may result in a reduced speed of transmission and/or disconnection. iPhone tethering bundles available on iPhone plans only.
