Points to note: Your account, top up & mobile broadband data

You'll need a compatible device and 3G or 4G coverage to use 4GEE WiFi. You can only use 4GEE WiFi on our 4G network if you're within a 4G enabled area and in range of a 4G base station. Your 4G device may not be compatible 4G networks outside the UK. You can check your 3G and 4G coverage at www.ee.co.uk/coverage

The SIM card we provide you for use in your compatible 4GEE WiFi device is enabled for data and SMS use. You can send SMS using the messaging facility at www.ee.co.uk You'll be charged for each message sent using this facility and the cost will be deducted from your account's top up credit.

An SMS consists of up to 160 characters. If you send a longer message, you will be charged for two or more text messages as appropriate.

Data will expire at the end of the time allocated to your add-on's usage period or once you've used your allowance of data, whichever comes first. Remember, you cannot purchase a new data add-on until your inclusive allowance has expired or you have used all the data available.

If you use VOIP (internet calling), the data used to make your call will be deducted from your pre-loaded data allowance or your data add-on's allowance.
