

NEW EE 4G WIFI DEVICES AND PLANS

GO ONLINE WHENEVER YOU WANT

Our new range of 4G WiFi devices and great value tablet
let customers access the power of superfast 4G on the move

TAILORED 4G WIFI

As part of our continued focus on great value and innovation, we're introducing a new range of 4G WiFi devices for a variety of lifestyle needs:

- Buzzard from EE – 4G for the car, a UK first**
 Ideal for the school run, the Buzzard plugs into an in-car power socket, turning the car into a personal 4G hotspot. The device creates a 4G wireless network for up to 10 devices and includes a unique container designed to sit conveniently inside a cup holder, perfect for keeping the whole family entertained on route. The Buzzard will be available from just £10 per month plus £19 up front (free on all other 24 month plans), or £49.99 on PAYG.
- Kite from EE – Superfast in your suit pocket**
 For busy professionals, the Kite slips neatly into a wallet or purse, delivering reliable connectivity for work and play. The stylish, pocket-sized design also means it's easy to take anywhere. The premium Mobile WiFi device will be available* from just £10 per month plus £29 up front (free on all other 24 month plans), or for £69.99 on PAYG plans.
- Osprey from EE – Durable 4G for work and play**
 For younger, more mobile users, the new Osprey is a secure and practical alternative to public WiFi. It features a colourful, rugged design and is perfect for students looking for superfast connectivity that they can use for studying online, or some well-earned downtime. The Osprey will be available from just £10 per month plus £19 up front (free on all other 24 month plans), or for £49.99 with on PAYG plans.

ALWAYS IN CONTROL

All three devices are available on range of new, great value pay monthly plans, and free on 24 month plans of £15 or above. Customers will always be in control of what they're spending – when data expires it's quick and easy to buy a new data add-on, and with usage reminders on all plans it's clear when data is running low, so there's no chance of being caught short. The new devices are also available on EE's existing range of 4G WiFi PAYG plans.

DATA ALLOWANCE	EE		EE EXTRA MORE DATA AND DOUBLE-SPEED 4G		
	1GB	3GB	15GB	25GB	50GB
24 MONTH**	£10	£15	£20	£30	£50
1 MONTH	£10	£15	£20	£30	-

**Depending on 4G Wi-Fi device chosen - upfront device cost discount is cheaper (or free) on 24month plans

THE UK'S MOST AFFORDABLE 4G TABLET

Also designed to provide affordable access to EE's double speed 4G network is the all-new, CAT-4 enabled Eagle tablet. The 8-inch device features a 5MP camera, quad-core processor and 16GB of memory (expandable by another 32GB using a microSD), giving customers outstanding performance at a fraction of price of similar devices. Using the Android OS, the Eagle is available for just £199 on PAYG, or for £49.99 on a £15 pay monthly plan that includes 2GB of data per month.
