

## **Christmas Gift with Purchase Offer**

Until 21 December 2017, new & eligible upgrading customers joining selected 4GEE or 4GEE Max plans with one of the phones listed in the table below will be entitled to a free gift. Unless we tell you otherwise, you can redeem this offer direct with EE online, over the phone or on [ee.co.uk](http://ee.co.uk).

The free gift will be sent to the address registered to your EE account up to 16 days after you receive your phone. Please make sure that you're happy with your phone before using your free gift; if you choose to cancel your EE price plan or swap your phone for a different make/model we'll ask you to send back the free gift at the same time (we'll provide packaging and cover UK postage). If you're swapping your phone and choose another make/model from the Device & Compatibility Matrix listed below, we'll send you another gift.

Please note that we reserve the right to apply a charge, equivalent to the value of the gift, on your next bill if:

- you don't return your free gift;
- you return an accessory but it is not the free gift that we sent to you as part of this offer;
- you return a gift with a broken hygiene seal;
- you return a gift that has sustained user inflicted damage and/or is missing parts or missing inclusive accessories;
- your gift is returned in unnecessarily damaged or torn packaging.

Please see the table below for details of the value of each free gift in this promotion.

If you discover that your free gift is not as described or has an inherent fault, please call 150 from your EE mobile and we'll explain your options.

Free gifts are subject to availability and while stocks last. One free gift per person, per EE mobile account. Offer cannot be combined or used in conjunction with any other offer, discount or promotion. The offer is non-transferrable, the gift cannot be substituted & there is no cash alternative.

### **Device & Plan Compatibility Matrix**

Please note, the cost of your price plan will vary depending on whether you're a new or existing customer and the inclusive data allowance you select. An upfront phone contribution charge may also apply: the charge varies depending on whether you're a new or existing customer and the colour, model & memory variant of the phone selected.
