

SAVE MONEY AND TIME

Everyone loves a bargain. So why not take advantage of the internet to get a great deal, whether it's on your weekly shop, or on a one-off designer number in the sales?

It's also quick and easy to compare what's on offer from competing retailers, so you can decide on the best and least expensive deal and get your shopping delivered to your door.

**"I LOVE BUYING
ONLINE AS I GET SO
MUCH MORE CHOICE,
IT'S CHEAP AND
I DON'T HAVE
TO CARRY THE
SHOPPING BAGS!"**

Safety tip

Only shop where the padlock sign is displayed, as this means the site is secure. If you're worried about using your bank or card details, go to www.getsafeonline.org for essential tips and advice.

Shopping and selling online

Shopping online saves time and money, and the things you buy can be delivered directly to your door. And if you need to make room for all your bargains, you can always sell your old stuff online!

On the go

mysupermarket mobile lets you compare prices in-store and between supermarkets while you're shopping.

Taster

Visit www.amazon.co.uk for an amazing range of goods, from books to bedding, and electronics to earrings. Snap up a bargain or make your first sale on www.ebay.co.uk

Exclusive discounts

You'll be amazed at how many online-only bargains there are out there, from £10 meal deals to discounted holidays, and from half-price ticket sales to 'deal of the day' sites.

Taster

Get great last minute holiday and entertainment deals with www.lastminute.com or try www.groupon.com and sign up for discount alerts.

On the go

The Vouchercloud app sees where you are and searches out great local high street deals for you on clothes, gifts, restaurants and much more...

Price comparison sites

Compare the deals on offer from lots of providers for high cost purchases like insurance and holidays.

Taster

Compare prices for a whole range of things including insurance, travel, mobile phones and broadband, at www.moneysupermarket.com

On the go

Shop smarter and use the RedLaser app on your smartphone to scan barcodes on all kinds of products and find out where they're the cheapest.
