

Magic Numbers terms and conditions for pay monthly plans
effective from 2nd April 2009

Magic Numbers - person to person calls to a Magic Number made in the UK will be included. You may choose an additional Magic Number every 6 months, there's no limit to how many Magic Numbers you can have. You may also change any Magic Number once every 6 months. A Magic Number can only be a personal phone number managed by Orange UK on the Orange Mobile UK network or a 2nd line number on the Orange UK Broadband Access network as part of any eligible Orange home package. On entry of a Magic Number, Orange will check to ensure that this number is within permitted number ranges and not one that has been excluded by Orange in its absolute discretion. If a number ceases to be within these ranges or is excluded it will be removed from your Magic Numbers. It could take up to 24 hours for Magic Number changes to become active. The Promotion is subject to a fair usage policy, which is currently defined as a maximum call duration of 3 hours per Magic Number per day. Orange reserves the right to remove Magic Numbers from a customers account if the fair usage policy is consistently exceeded.
