

T-Mobile Pay Monthly Plans from 30 October 2013

To join, you'll need to pass our standard credit checks and promise to stay with us for 24 months. All services are within the UK only. Your monthly payment is for your internet on your phone, your WiFi allowance (for plans with 500 minutes or more) and your inclusive minutes and texts.

Your inclusive minutes and texts are to other customers of UK mobile networks, to check your voicemail and to call landlines starting with 01, 02 and 03 (excluding the Channel Islands and the Isle of Man).

Any plan with an unlimited data allowance gives you unlimited use of internet on your phone when you're in the UK. This means you can use as many MB/GB as you like and no fair use policy will apply. Please note, internet on your phone includes using your phone as a modem (tethering) but network traffic controls apply. You can also use your phone for voice over IP calling. Your peer to peer file sharing experience will also be slower during peak hours. Remember, you can only use your SIM card in a mobile phone and you'll need internet coverage, check it at ee.co.uk/coverage To be clear, this means if you try to use your SIM in a mobile broadband enabled device you won't be able to get online.

For customers with a capped data allowance, if you exceed your monthly data allowance during any billing month you will be charged £1 per day for data usage. You will not receive any alerts that your data allowance is approaching expiry, or that it has expired, so remember to monitor your data usage by texting AL to 150. The £1 per day data charging has a fair use policy of 2.5GB per month. So if you use more than 2.5GB of additional data (so that is additional data beyond your plan allocation) in any billing month, then your internet speed will be slowed down. Please see ee.co.uk/terms for more information on network traffic controls.

If your plan includes 500 minutes or more, included in your plan is access to our preferred WiFi partner's network; presently this is the BT Wi-fi network. The BT Wi-fi terms, including those about acceptable use, will also apply to you. You can see these at <http://www.btwifi.co.uk/terms-and-conditions/index.jsp> As we aren't the provider of the WiFi service, we aren't responsible for whether there is WiFi available where you want it, or for the quality of that service. We might swap your WiFi service to another preferred partner in future, provided that you get a similar experience. There is a 3GB a month fair use policy. If you go over the 3GB, we may monitor your usage and suspend your usage or withdraw the offer from your account.

These plans are for normal person to person use from your phone and are subject to your acceptance of our standard terms and conditions for pay monthly services. We monitor use in accordance with those terms. The terms state that you can't use these plans to sell access to our network to anyone else. They are also not to be used for anything unlawful or to send nuisance communications. At the moment, we'll decide that you're breaking these terms if you text or call more than 200 different numbers in a month. Remember, we're free to decide that other types of use may also be breaking this term. If you do break this term, we'll contact you and ask you to stop and if you don't then we may disconnect your SIM card from our network.

Calls to numbers starting with 070, 08 (including 0870), 09 and 118 are not included in your inclusive allowance. Calls to 070 numbers cost up to 75p/min. 08 numbers cost up to 40p/min and 09 numbers cost up to £3/min. See www.t-mobile.co.uk/help&support/priceplans for further information.
