

## Tablet Data Plans sold with Tablet Finance

These data plans are only available when sold with an accompanying tablet finance agreement which is subject to a credit check. Tablet finance is only available upon invitation to existing EE, Orange or T-Mobile customers through our Telesales team. Not available in any other channel.

Pay by Finance is organised and administered jointly by EE and Barclays Partner Finance, a trading name of Clydesdale Financial Services, a wholly owned subsidiary of Barclays Bank Plc, 1 Churchill Place, London, E14 5HP, United Kingdom ("Barclays Partner Finance"). All offers of finance are subject to acceptance by Barclays Partner Finance. EE is not responsible for anything to do with the finance agreement and you should contact Barclays Partner Finance.

Finance documents must be signed electronically within 30 days or the offer will be revoked. If Barclays Partner Finance does not accept your application for finance, or you do not sign the finance documents, the tablet and SIM will not be sent to you and the data plan will not be activated.

You'll have to promise to stay with EE for 24 months regardless of whether you cancel, pay off early or end your finance agreement.

Your monthly payment to EE is for an allowance of UK mobile broadband data accessed using a SIM in a compatible device. If you join a plan with an allowance of 10GB, you'll also get access to double speed 4GEE and a 100MB allowance of data that can be used when you're travelling in the EE Europe Roaming Zone (described below). Once you've used your inclusive allowance of roaming data, you'll have to buy a data add-on to continue using the internet abroad.

You'll need 3G or 4G coverage to use the internet. You can only use internet on our 4G network if you're within a 4G enabled area, in range of a 4G base station and have a compatible 4G tablet from us. 4G is subject to coverage and your tablet may not be compatible with any 4G network outside the UK. You can check your 3G and 4G coverage at [ee.co.uk/coverage](http://ee.co.uk/coverage).

Our mobile broadband options gives you a data allowance to use each month. We'll let you know by text when your data is running low (80% of your allowance used up) and when it has run out.

If you join our plan with a monthly data allowance of 500MB or 2GB , you can experience speeds of up to 30Mbps only. If you join a plan with a data allowance of 10GB or more you could experience 4GEE speeds over 30Mbps, where double speed 4GEE is available and depending on a range of factors affecting speed and coverage such as your location; whether any trees or buildings are affecting your signal; and what the building is made from if you're using your phone indoors. Check your coverage at [ee.co.uk/doublespeed](http://ee.co.uk/doublespeed).

You can use your mobile broadband to make internet phone calls ('VoIP'). Remember, you can use mobile internet on your laptop for peer to peer file sharing but your speed will be slower than usual as we monitor our network to protect it for all customers. Please see the network management policies on our website for more information. We won't charge you anymore if you reach your monthly data allowance, but you won't be able to use the internet. To continue to use mobile broadband if you reach your monthly data allowance, you will need to buy one of our data add-ons to use mobile broadband until your next bill date.

If you don't use mobile broadband in accordance with these terms and conditions or if you use your SIM card in another internet enabled device, for example a mobile phone, we reserve the right to withdraw your mobile broadband plan. We will also charge you for the additional services that you have used. For more information about these charges, please read the Non-Standard Charges Price Guide at [ee.co.uk/priceguides](http://ee.co.uk/priceguides).

Remember, your network terms will apply to your use of our services. Where there is any conflict between these terms and the network terms, these terms shall apply.
