Notes on UK calling

From 15th June 2017 you can call and text from the EU/EEA/Switzerland to mobiles and landlines in UK, EU/EEA/Switzerland at UK rates or within allowance if you have an allowance. Calls to premium numbers are not permitted within allowance.

Unless we tell you otherwise, all charges for UK calls are for calls made or received within the UK only.

Calls within the UK only are calls made or received in either England, Wales, Scotland or Northern Ireland.

As you'll know, the Channel Islands and the Isle of Man are not part of the UK. That means that, although customers of networks there will have a telephone number starting with 01, 02, 03 or 07, calls to those numbers from the UK will be charged as a call to our EE Roaming Zones 1a-2b.

What's a UK land-line or a local/national call?

This is a call made within the UK to a UK number beginning with 01, 02 or 03.

What's a UK mobile call?

This is a call made within the UK to a mobile number allocated to the national UK GSM cellular network operators and many of the mobile virtual network operators ('MVNOs'). There are some newer networks who have a telephone number starting with 07 but which aren't treated as a UK mobile call for the purpose of inclusive allowances. Once we become aware of these newer networks and their number ranges we'll try to make sure that calls to those numbers are included in your allowance. For a full list of 07 number ranges that are not included in allowances please visit the 'help' section of our website, ee.co.uk We may add numbers to the list of excluded mobile numbers from time to time at our discretion. That means that if you call one of those numbers, that call won't come out of your inclusive allowance and you'll be charged your price plan's rate for a call to a UK mobile. As networks like these change from time to time, please contact us if you would like to check a particular number before dialling it from your EE phone. Personal numbers that begin with 070, are not mobiles and not included in allowances.

Out of Allowance Data

You'll get a data allowance with your price plan, if this runs out before the end of your bill period, you can buy an Add-On to let you carry on using the internet. Your data allowance will reset at the start of the next bill period.

Call Return

You can return a call directly from your voicemail just by selecting '#' once you've finished listening to a voicemail message.

Roaming rates apply when accessing your voicemail service whilst abroad. Standard rates apply when using Call Return whilst abroad.

Call Divert

Call divert is a feature which lets you divert your incoming calls to a different number. Calls diverted from your number are included in your allowances where the diverted to number would have ordinarily been included in your allowance. Standard call rates apply to calls diverted to outside of allowance calls.

Calling into CS

You can call into our Customer Services by dialling 150 from your handset or from a UK landline – call 0845 412 5000 (Service Charge 7 ppm + Access Charge). If you're calling from abroad call +44 7953 966 150.

Group Voice Messaging

Send one voicemail message to up to 20 EE friends at once. You'll only be charged for your call to your voicemail. Standard rates apply.

EE Group Call

EE Group Call is a conference call hosting service that enables up to 20 callers to conference in to one call.

The group organiser will need to choose a conference ID. This can be any 6 digit number, for improved security we suggest avoiding numbers like 111111 or 123456. Conference IDs can be longer than 6 digits if desired. Participants dial into EE Group call at the agreed date and time of the call and enter the conference ID when prompted.

Visual Voicemail

Inclusive Visual Voicemail is available on any iPhone on any EE plan. Requires iOS6.0 software or higher, Carrier Setting 13.2 and a 2G, 3G or 4G signal. Existing EE customers can activate Visual Voicemail for free by texting 'iphonevisual' to 150. New EE customers can get Visual Voicemail set up in-store or online. To use Visual Voicemail abroad, you'll need to have roaming activated: standard data charges will apply.

How Your Services Are Charged - Data

What do you mean by data usage?

We measure how much data you use in kilobytes (KB). Data is based on the following units:

- 1024 bytes = 1 Kilobyte (KB) (equivalent to reading 2/3 paragraphs of text)
- 1024 KB = 1 Megabyte (MB) (equivalent to about one hour of instant messaging)
- 1024 MB = 1 Gigabyte (GB) (equivalent to about five hours of watching YouTube)

We send data across our network in packets no bigger than 1.5KB. A packet is just a unit of data.

Data usage is all the data that's been sent or received. Upstream is where data is transferred from your device to the internet (uploading). Whereas downstream is from the internet to your device (downloading).

We calculate your data usage based on the amount of data that travels over our network both upstream and downstream, which may be different from the data your device consumes.

Your data usage will also include additional data packets which control the flow of data over the network and may also include data packets which have to be re-sent over the network, for example if you're in an area with poor coverage and your connection drops off.

When content providers state the file size of their content, it may take up a little bit more of your data to download that file. This is because of encryption and addressing data which can be up to 10 per cent of the total file size. For instance, if an image is said to be 100MB, it may take up to 110MB of data to download that file to your device.

*Data is currently barred.

To use data whilst roaming abroad outside of the EU/EEA/Switzerland you will need to purchase a data pass.

A one-minute minimum call charge applies to all calls. Thereafter, calls are charged on a per minute basis.

13. Any undelivered text messages will be charged at the standard rate for your price plan.

Voicemail charges whilst travelling

When roaming in zones 3-8, you'll be charged to listen to your voicemails. This is charged at the standard per-minute roaming call rate for that country.

Voicemail charges whilst travelling

Standard roaming rate apply when calling into your voicemail service whilst abroad.

For further details on call costs whilst roaming please refer to the help section of our website, ee.co.uk

If you connect to a local WiFi service on your mobile phone while you're abroad, you won't use any of your Data Roaming Add-Ons while you're using it. Charges for using WiFi will be made by the local provider.

Points to note

For customers joining or upgrading from 1st September 2020: Unless otherwise indicated, your monthly price plan charge, add-ons and all out of bundle charges will increase on or after 31st March every year by the Consumer Price Index rate of inflation published in January that year, plus 3.9%. See ee.co.uk/increase for details. Please note the cost of other services you take from us may increase or decrease while you're an EE customer. The following prices will not increase each year by the Consumer Price Index rate of inflation published in January plus 3.9%: Service Charges, EU Call Abroad Standard rates and calls to 070. These prices may increase from time to time.

Per minute charging applies to all types of chargeable calls (unless otherwise stated). Charging starts when a call is answered by a person or an answering device. The call is billed at the rate applicable at the start of the call. A call ends when: a) you end the call on your phone; or b) 16 seconds after your calling phone loses signal for any reason (note: we continue to maintain the call in case your device re-establishes a signal with our network within this period); or c) you do not end the call on your phone up to 30 seconds after the last third party you were connected to has ended their call. VAT: All Our Charges are exclusive of VAT. You shall pay an amount inclusive of VAT. As of October 2012 VAT is charged at 20%. If the rate is increased the amount that you pay will automatically be increased by an equivalent amount (meaning that the amount in the incl. VAT column of our charges table will be revised upwards to reflect the rate increase). On the bill, for pay monthly customers the charge for each call is rounded to the nearest tenth of a penny. The total of each of the subcategories of 'call charges' and 'other usage charges' will be rounded to the nearest penny on the bill, then added together before VAT is added to this final figure. Customers should look at the travelling section within this document for the minimum call charge for travelling calls.

Allowances and options a) Multiple allowances can be purchased, b) The allowance(s) will be applied to your account from midnight of the day of your request. The first monthly charge and allowance will be pro-rated to the date of your next monthly bill, and thereafter the full monthly charge(s) will be applied on each monthly bill. c) Unless we tell you otherwise, your allowance from an Add-On will last for the stated duration. If you buy a monthly recurring Add-On, the monthly charge will continue until you ask our customer service agent to cancel. Remember, if you decide to cancel your Add-On you'll have to give us 30 day notice. The text message consists of up to 160 characters. If you send a longer message, you will be charged for two or more text messages as appropriate. Monthly allowances used are calculated at approximately midnight on the final day of the customers billing cycle. While we use all reasonable endeavours to ensure that your calls are processed in the order that they are made, and that they are billed for the appropriate period, for reasons beyond our control it is possible that this may not happen.

Total amounts on your bill are rounded to two decimal places, so the value may be a penny higher or lower

Terminating your agreement with us

You can terminate your agreement with us at any time, for more information on how to cancel your contract, please see our website [here](#). If you are terminating whilst you are within your existing minimum term, an early termination charge (ETC) will apply.

We calculate an early termination charge (ETC) like this:

1. We add together all outstanding monthly (or other periodic) charges for the remainder of your minimum term, excluding VAT. If you have a monthly recurring subscription discount we will take that into account.
2. We then take 4% off that figure;
3. Finally we add VAT to get the final charge you owe us.
