## Notes on UK calling

- Unless we tell you otherwise, all charges for UK calls are for calls made or received within the UK only.
- Calls within the UK only are calls made or received in either England, Wales, Scotland or Northern Ireland.
- As you'll know, the Channel Islands and the Isle of Man are not part of the UK. That means that, although customers of networks there will have a telephone number starting with 01, 02, 03 or 07, calls to those numbers from the UK will be charged as a call to a Zone 2 country.
- What's a UK landline or a local/national call?
  - This is a call made within the UK to a UK number beginning with 01, 02 or 03.
- What's a UK mobile call?
  - This is a call made within the UK to a mobile number allocated to a customer of a national UK GSM cellular network. These are what are commonly known as mobile networks. At the moment, the national UK GSM cellular networks belong to Hutchinson 3G, 02, Vodafone, Orange and EE. Calls to one of the mobile operators exclusively using numbers allocated to their networks (e.g. Virgin, Tesco, Fresh) are treated the same.
  - There are some newer networks whose customers have a telephone number starting with 07, but which aren't treated as a UK mobile call for the purpose of inclusive allowances. That means that calls to some numbers starting with 07 aren't treated as UK mobile calls. Please go to the "Help & Support" section of our website, [ee.co.uk](http://ee.co.uk), for details around "non inclusive 07 mobile numbers". That means that if you call one of those numbers, that call won't come out of your inclusive allowance and you'll be charged your price plan's rate for a call to a UK mobile. Special Access Numbers also begin with 07, are not included in allowances and are charged as detailed on page 2.
  - As networks like these change from time to time, please contact us if you would like to check a particular number before dialling it from your EE phone.

## Annual and quarterly line rental

If you are an existing customer who joined EE on an eligible price plan before 26 March 2006, you may be able to pay quarterly (equivalent to three times the monthly rental) up front, or annually up front (equivalent to twelve times the monthly rental less a 5% discount). This service is available for your monthly line rental for your price plan and your monthly rental for any allowance.

## Call Return

You can return a call directly from your voicemail service just by selecting '#' once you've finished listening to a voicemail message.

You will be charged to return the call and charged for calling voicemail for the length of the call you have returned. These charges will be charged at your price plan rate for those two types of call.

Using your voicemail service whilst travelling will be charged as per the normal travelling voicemail service. Call Return will be charged as though you were in the UK. Access to and charging for the voicemail service will continue whilst you use Call Return.

## Group Voice Messaging

Using your Voicemail service to record a Group Voice Message or administer lists will be charged at your price plan rate for calling a EE customer within the UK for the length of the message recorded for each intended recipient.

Messages sent to other operators' customers or to EE UK customers using an international prefix or where EE UK customers have non-activated Voicemail will be charged as a voice call as per your price plan for the length of the call including repetition of message and introduction, for each intended recipient.

Using your Voicemail service to record a Group Voice Message or administer lists whilst travelling will be charged as per the normal travelling Voicemail service. Group Voice Messages sent will be charged as though you were in the UK.

# Points to note

- Per minute charging applies to all types of chargeable calls (unless otherwise stated). Charging starts when a call is answered by a person or an answering device. The call is billed at the rate applicable at the start of the call.
- A call ends when:
  - a) you end the call on your device; or
  - b) 16 seconds after your calling device loses signal for any reason (note: we continue to maintain the call in case your device re-establishes a signal with our network within this period); or
  - c) you do not end the call on your device up to 30 seconds after the last third party you were connected to has ended their call.
- VAT All Our Charges are exclusive of VAT. You shall pay an amount inclusive of VAT. As of 4th January 2011 the VAT rate increased to 20%. If the rate is increased the amount that you pay will automatically be increased by an equivalent amount (meaning that the amount in the inc VAT column of our charges table will be revised upwards to reflect the rate increase).
- On the bill, for pay monthly customers the charge for each call is rounded to the nearest tenth of a penny. For Mix It/U-Fix, Solo Fixed and Sim Only customers all VAT will be charged per individual call. Customers should look at the travelling section within this document for the minimum call charge for travelling calls.
- Allowances and options
  - a) Multiple allowances can be purchased, e.g. you can purchase a 50 text allowance and a 100 text allowance, giving you a total text allowance of 150 per month. If you purchased your allowance prior to June 2002 you can only have one allowance per month.
  - b) The allowance(s) will be applied to your account from midnight of the day of your request. The first monthly charge and allowance will be pro-rated to the date of your next monthly bill, and thereafter the full monthly charge(s) will be applied on each monthly bill.
  - c) Customers must keep an allowance for a minimum of one month. The monthly charge will continue until the customer requests a customer service agent to cancel the allowance, which will be effected at the customer's next bill date.
- A text message consists of up to 160 characters. If you send a longer message, you will be charged for two or more text messages as appropriate. You will be charged per text message sent to non GSM networks.
- GPRS/3G usage for pay monthly customers is billed per kilobyte and rounded up to the nearest kilobyte. A kilobyte (kB) is equivalent to 1024 bytes. A megabyte (MB) is equivalent to 1024 kB. All data sent and received, other than that added to control the flow of data over the network that is transferred, is chargeable.
- If your allowance runs out during a call or GPRS/3G session, we will charge you for the remainder of that call or session at the relevant rate as per your price plan. Once your allowance has been used, you will be charged for all subsequent calls or GPRS/3G data transferred at your price plan rate.
- Monthly allowances used are calculated at approximately midnight on the final day of the customers billing cycle.
- While we use all reasonable endeavours to ensure that your calls are processed in the order that they are made, and that they are billed for the appropriate period, for reasons beyond our control it is possible that this may not happen.
- Where a price plan has call charges which vary depending on the time of day, the new call rate will take effect within 1 second of the published time.
- Terminating your agreement with us. You can terminate your agreement with us at any time by calling customer services. Your agreement will terminate one calendar month from when we receive your call stating that you wish to terminate the agreement. You are free to change your mind and call us to restore your agreement at any time during that month's notice period. You must pay as everything you owe us if you terminate your agreement with us. If you are terminating once your existing minimum term contract has run out, you will be responsible for all charges including the price plan charges up to and including the date that your agreement terminates. If you are terminating whilst you are within your existing minimum term, a cancellation charge will apply. We calculate a cancellation charge by firstly adding together all outstanding monthly (or other periodic) monthly charges (or any other charges stated in the terms and conditions for any service) for the remainder of your minimum term. We then take off 4% of that figure to get the final charge.
- Total amounts on your bill are rounded to two decimal places, so the value may be a penny higher or lower
