

# Plan Price Guide

## Mobile Broadband

For customers joining or upgrading before 30 October 2013

Price Guide updated and all charges applicable from 01st April 2020

Each year in March, the price of your monthly plan will increase in line with the Retail Price Index (RPI) rate of inflation as published in January by the Office for National Statistics. To check your current monthly price plan charge just check your latest bill or My EE.

This is the Plan Price Guide referred to in your full pay monthly agreement with us. This Plan Price Guide forms part of your agreement with us.

All services are for use whilst in the UK only

- Applies to messages sent from your phone or via the EE website, ee.co.uk.
- A one minute minimum call charge applies. Thereafter, calls are charged on a per minute basis.
- Calls to some charity helplines (e.g. Childline) are free to call.  
For a full list please visit the help section of our website, ee.co.uk.
- Data when using VoIP service, use will be deducted from your inclusive data allowances.
- BT WiFi access has a 3GB fair use policy. Please see below in 'Points to Note'.
- Data whilst roaming is not included in your plan. Add-on purchase will be required.
- Call charges vary depending on the time of your call as well as other optional selections that you may choose. You will be notified of call costs and have the option to end the call at that point without incurring any charge. Please see our 'Non-Standard Service' brochure for further details and for definitions of our "normal working hours" and "extended working hours".
- Excluding SIM Only plans.

Please go to the help section of our website, ee.co.uk, for details around 'non-standard' service charging. This includes charges for numbers starting with 05, 070, 09 and 118. Calls to these numbers are subject to a one minute minimum call charge. Thereafter, calls are charged on a per minute basis. Remember that calls to these numbers are not included in your monthly allowance.

## Points to note

### Notes on UK calling

Calls within the UK only are calls made or received in England, Wales, Scotland or Northern Ireland. As you'll know, the Channel Islands and the Isle of Man are not part of the UK. That means that, although customers of networks there will have a telephone number starting with 01, 02, 03 or 07, calls to those numbers from the UK will be classed as a call to an EE Roaming Zone. See our Non Standard Price Guide for more information.

### Are all 07 numbers UK mobile numbers?

It is important to note that not all numbers beginning with 07 are mobile numbers. 070 numbers are used for 'follow me' services and are not mobile numbers. 076 numbers are used for paging services. Some 07 numbers are used for call forwarding services. Charges for calls to these numbers may vary. See our Non Standard Price Guide for more information.

### Internet options & WiFi

You'll need 3G or 4G coverage to use mobile internet on your phone and a compatible device. You can only use mobile internet on our 4G network if you're within a 4G enabled area and in range of a 4G base station. Your 4G phone may not be compatible with any 4G network outside the UK. You can check your 3G and 4G coverage at [ee.co.uk/coverage](http://ee.co.uk/coverage).

If you go over your 3GB WiFi fair use policy, we may monitor your usage or withdraw the offer from your account.

For further information on terms and conditions please see 'Non Standard Price Guide'. Non Standard Price Guide also includes the prices and terms and conditions for all our other additional services, like using your phone abroad if you don't get an inclusive roaming allowance and calls to premium rate numbers.

### General

- A text message consists of up to 160 characters. If you send a longer message, to a number excluded from your allowance, you will be charged for two or more text messages as appropriate.
- You can get an estimate of your out of allowance usage by calling 150 or by visiting MyEE. If there is a difference between the account services estimates and the amount shown on the bill, the latter takes precedence.
- Diverted calls are charged at the standard landline rate, or if appropriate, the relevant mobile or special number rate.
- Charging starts when a call is answered by a person or an answering device.
- On the bill, for pay monthly customers the charge for each call is rounded to the nearest tenth of a penny. The total of each of the sub-categories of 'call charges' and 'other usage charges' will be rounded to the nearest penny on the bill, then added together before VAT is added to this final figure. All chargeable calls will be subject to a one minute minimum charge unless otherwise stated.
- When you join an EE pay monthly plan, you should be sent your first bill within two weeks of becoming a customer. Your first month's charge will be proportionate to the number of days from your date of joining to the end date of your bill.

Prices correct as at 01st April 2020
