

Fair use amount

If your domestic data allowance is greater than 15GB, a fair usage policy of 15GB whilst roaming in our Europe Zone will apply (i.e. you can use up to 15GB from your allowance while roaming). The only exceptions are if you are on our Business Extra or Extra+ plans with 32GB, 40GB, 50GB or 60GB domestic data allowance – these are subject to a fair usage policy of 25GB. Once you've used your fair use policy amount when roaming, we will notify you and surcharges will apply to continue using data when roaming in our Europe Zone.

The surcharges will last until you exhaust the remainder of your domestic data allowance, return to the UK, or until your next bill date (whichever is earlier).

- 1MB £0.0060

Note whilst the charge displayed above is per MB, EE charge on a per KB basis (i.e. 1KB = £0.0000060 or 0.00060p).

Whether you have a FUP and subject to the above surcharges after exhausting your fair use amount, or you have a domestic allowance of 15Gb or less and therefore not subject to the fair use amount, if you use all your domestic data allowance when roaming outside the UK you'll need to buy an out of bundle UK/EU data add-on to continue using data. Details of these data add-ons (and the surcharges mentioned above) can be found in the [EE Price Guide for Small Business](#).

So, for example, if your data allowance is 25GB you can use a maximum of 15GB when roaming:

Scenario 1	Scenario 2	Scenario 3
You've used 8GB in UK before going abroad	You've used 8GB in UK before going abroad	You've used 15GB in UK before going abroad
You use the maximum 15GB outside the UK	You use 5GB while roaming, out of a maximum 15GB	You'll have 10GB maximum to use outside the UK
After you have used 15GB data outside the UK, surcharges will apply for you to keep using data	You'll have 12GB left to use in UK when you come back.	After you have used the remaining 10GB of your allowance you will need to buy a data add-on to use more data whether you are in the EU or the UK. If you use more than 5GB of the data from the add-on while in the EU, surcharges will apply for you to keep using data
You'll have 2GB left to use in UK when you come back		

Stable links

You must comply with the EE fair use policy which includes you being a permanent resident in, or having a stable link to, the UK. We will consider you to have a stable link to the UK if, during any four-month period, you:

- spend a total of two months or more within the UK; or
- mainly use your inclusive voice, text or data usage allowances in the UK, rather than while you are roaming.

If we reasonably believe there is a breach of this stable links policy, we will monitor this based on the combination of your presence in the UK and usage in the EU/EEA/Switzerland for four months. If,

during this four month period, we believe or know that you may have breached the conditions set out above, we will notify you of the breaches and ask you to explain the reasons for this, as well as setting out the type of proof you need to supply to satisfy us that your usage complies with EE's stable links policy.

If you do not contact us within 14 days or we think that your explanation for your usage is unreasonable we may apply a surcharge for all future usage. Surcharges are set out above and we will cease to charge these surcharges when you contact us and either supply the proof requested in our notification or comply with the stable links policy. You may not resell our UK SIM cards to persons not residing in or having stable links to the UK. If you do, we may block the SIM card and roaming services.

Complaints

If you have any concerns about EE's FUP policy, please get in touch with us using your preferred contact method at our [Ways to Complain](#) page. Please see our [Complaint Code of Practice](#) for full details of our complaints procedure.
