STANDARD BROADBAND & FIBRE BROADBAND PLANS

Terms & Conditions for Consumer Customers

Version 4.0

Date  26th October 2016
General
If you live in either an EE Standard Broadband network area (which is over 90% of all UK homes) or an EE Fibre Broadband network area (currently over 23 million homes and businesses – please check ee.co.uk/broadband for details) you can join a Standard Broadband plan or one of our Fibre Broadband plans. To join, you'll need an EE phone line. You'll also need a wireless enabled computer or adapter to be able to connect to our router wirelessly.

All of our Fibre Broadband plans, and most of our Standard Broadband plans, both with inclusive call packages, have an 18 month minimum connection period. EE Standard Broadband with an inclusive call package is also available with a 12 month minimum connection period when you buy online at ee.co.uk/broadband

If you live in the EE Standard or Fibre Broadband network area, all our plans have an unlimited data allowance and are available to consumers and small business customers using internet services at one residential or business address.

The monthly charges we promote for our broadband plans includes line rental (see below) and assume that you pay by direct debit.

Additional charges will be payable if you’re:
(i) eligible to pay by an alternative payment method; or
(ii) you do not pay by the date set out on your bill

For more information, please see our Price Guide ee.co.uk/homepricing.

It can take up to 30 days in order for us to get you set up with your plan, including your telephone line.

If you don’t live in an EE Standard Broadband network area you can still get a broadband plan with an inclusive call package for an extra £15 each month on top of our non-discounted pricing. These plans provide a monthly data allowance of 20GB. If you’re a new customer, a £25 connection charge will also apply.

Line Rental
Line rental of £18.50 is included in the monthly charges for our broadband plans that we promote in our advertising and on our website. However, on your bill you will see that the monthly charge for your broadband and line rental are listed as separate items.

You can choose to pay for your line rental using our Line Rental Saver option which allows you to pay for either 12 or 18 months’ line rental in advance. The charge will be applied to your first bill.

For our 12 month option we'll apply a charge of £199 to your first bill, and for our 18 month option, it will be a charge of £299, the equivalent of paying for line rental at a cost of £16.58 or £16.61 a month respectively (a saving of over 10%).

Your Line Rental Saver payment is non-refundable and cannot be paid in instalments. Each month you will receive a monthly line rental credit on your account.
After the 12 or 18 month period, you will automatically roll on to our monthly line rental at £18.50 a month, unless you choose to purchase a further 12 or 18 months of Line Rental Saver.

If your minimum term is for 18 months, and you take our 12 month Line Rental Saver, you can take the Line Rental Saver for the first 12 months of your contract, and automatically roll on to our monthly line rental and pay each month for the remaining 6 months or purchase a further 12 months of Line Rental Saver at the rate available at that time. However please keep in mind that Line Rental Saver is not refundable should you wish to change service providers at the end of your 18 month minimum term.

For more information, please see our Price Guide ee.co.uk/homepricing.
