Notes on UK calling

Unless we tell you otherwise, all charges for UK calls are for calls made or received within the UK only.

Calls within the UK only are calls made or received in either England, Wales, Scotland or Northern Ireland.

As you'll know, the Channel Islands and the Isle of Man are not part of the UK. That means that, although customers of networks there will have a telephone number starting with 01, 02, 03 or 07, calls to those numbers from the UK will be charged as an IDD call (International Direct Dial)

EU Roaming Regulations 15th June 2017

From 15 June 2017, customers on eligible plans will be able to use their minutes, texts and data at no extra cost when roaming in the EU/EEA if they have roaming activated on their account. Data fair usage policy may apply, see plan details and Terms and Conditions section of the EE Standard Price Guide for more information.

Charges are per Connection per month. Plans with Unlimited UK minutes and UK Texts plus data included within them can be used as Shared Plans to share the data allowance unless otherwise specified. On plans that have UK and European allowances, the data allowance can be shared while roaming in the specified countries. Minutes and texts cannot be shared.

Details of all of European countries included for both roaming and International Direct Dial (calling abroad from the UK) are listed at the end of the business handset plans and business SIM Only sections. See the Terms and Conditions section for more information.

What's a UK landline or a local/national call?

This is a call made within the UK to a UK number beginning with 01, 02 or 03.

What's a UK mobile call?

This is a call made within the UK to a mobile number allocated to the national UK GSM cellular network operators and many of the mobile virtual network operators ('MVNOs'). There are some newer networks who have a telephone number starting with 07 but which aren't treated as a UK mobile call for the purpose of inclusive allowances. Once we become aware of these newer networks and their number ranges we'll try to make sure that calls to those numbers are included in your allowance. This may not always be possible and at the moment there are 13 number ranges that are not included in your allowance. These include: 079112, 078920, 078931.079788, 077211, 077856, 075594, 074088, 074067, 074187, 074189, 074182, 074409. That means that if you call one of those numbers, that call won't come out of your inclusive allowance and you'll be charged your price plan's rate for a call to a UK mobile. As networks like these change from time to time, please contact us if you would like to check a particular number before dialling it from your EE phone. Personal numbers that begin with 070, are not mobiles and not included in allowances.

Call Return

You can return a call directly from your voicemail just by selecting '#' once you've finished listening to a voicemail message.

Roaming rates apply when accessing your voicemail service whilst abroad. Standard rates apply when using Call Return whilst abroad.

Call Divert

Call divert is a feature which lets you divert your incoming calls to a different number. Calls diverted from your number are included in your allowances where the diverted to number would have ordinarily been included in your allowance. Standard call rates apply to calls diverted to outside of allowance calls.

Calling into CS

You can call into our Customer Services by dialling 150 from your handset or From a UK landline - call 0845 412 5000 (When calling this number from your EE mobile you will be charged EE's Access Charge of 46p per minute plus a service charge of 6p per minute (excl. VAT). When calling from a landline you will be charged this service charge plus the applicable access charge. If you're calling from abroad call +44 7953 966 150.

Group Voice Messaging

Send one voicemail message to up to 20 EE friends at once.

EE Group Call

EE Group Call is a conference call hosting service that enables up to 20 callers to conference in to one call.

The group organiser will need to choose a conference ID. This can be any 6 digit number, for improved security we suggest avoiding numbers like 111111 or 123456. Conference ID's can be longer than 6 digits if desired. Participants dial into EE Group call at the agreed date and time of the call and enter the conference ID when prompted.

Points to note

As of October 2012 VAT is charged at 20%. If the rate is increased the amount that you pay will automatically be increased by an equivalent amount (meaning that the amount in the inc. VAT column of our charges table will be revised upwards to reflect the rate increase). On the bill, for pay monthly customers the charge for each call is rounded to the nearest tenth of a penny. The total of each of the subcategories of 'call charges' and 'other usage charges' will be rounded to the nearest penny on the bill, then added together before VAT is added to this final figure. Customers should look at the travelling section within this document for the minimum call charge for travelling calls.

Allowances and options

- a) Multiple allowances can be purchased.
- b) The allowance(s) will be applied to your account from midnight of the day of your request. The first monthly charge will be pro-rated to the date of your next monthly bill, and thereafter the full monthly charge(s) will be applied on each monthly bill. You will receive the full allowance from the point the allowance is added.
- c) Unless we tell you otherwise, your allowance from an Add On will last for 30 days. If you buy a monthly recurring Add On, the monthly charge will continue until you ask our customer service agent to cancel. Remember, if you decide to cancel your Add On you'll have to give us 30 days' notice. The Monthly allowances used are calculated at approximately midnight on the final day of the customers billing cycle.

Bill Charges: Total amounts on your bill are rounded to two decimal places, so the value may be a penny higher or lower.
