FILMS HERE, THERE AND EVERYWHERE

The EE Film Store app lets consumers stream or download the latest films on their smartphone, tablet, laptop – or a mixture of these so customers can enjoy the latest movies whenever and wherever they are.

With EE's superfast 4G network and Fibre Broadband, customers can stream a film when they are on the move, and then finish it when they're at home.

The latest films

The Film Store will give customers access to a wide range of the latest blockbusters, as well as a variety of classic films.

A film a week, on us

To celebrate the launch of EE Film, EE mobile and Fibre Broadband customers can download or stream one film from the Film Store every week until February 2013, on us, with EE covering the data costs of the film.

2 for 1 cinema tickets

EE customers will be entitled to 2 for 1 cinema tickets every Wednesday which they can access through the App or via SMS.

Key Facts

- EE Film gives customers access to the latest films via the EE Film Store app, offering EE mobile and fibre customers a film a week on us and 2 for 1 cinema tickets every Wednesday
