

BROADBAND & EE TV

Data Boost for EE Pay Monthly plans

Version 1

Date 23 January 2018

Available from 23 January 2018

Existing and new EE customers on an eligible pay monthly plan who sign up to a fixed or 4GEE Home Broadband plan will receive an additional 5GB data on their mobile plan each month. Data allowance boosted by 50GB if both your pay monthly and broadband plans are on Max plans. You will lose the 50GB boost if you move to a non-Max plan at any point.

1. You'll lose the boost if you cancel your broadband. To retain your boost when you upgrade or change your pay monthly plan, your EE broadband must still be active and you must be moving to an eligible pay monthly plan.
2. Not available on 30 day SIM plans or Business customers. The promotion is only available on the lead 'sharer' account on Shared plans.
3. The extra data will be applied to your mobile account up to 30 days after your EE broadband service goes live. We'll send you a text message to let you know when your data allowance has been boosted.
4. Customers will receive the boost each month in their pay monthly data allowance.
5. The boost cannot be transferred to another device, plan or account.
6. Your broadband plan will be subject to our standard broadband terms and conditions and your pay monthly phone plan will be subject to EE's standard pay monthly terms and conditions. Both of which can be found here: ee.co.uk/terms
7. If you cancel your fixed broadband service in accordance with EE's standard cancellation terms, you will lose the data boost on your mobile phone plan
8. If you upgrade or change your pay monthly plan, you may no longer be eligible for the data boost. We'll let you know when you choose a new plan if it can be carried across.
9. EE reserves the right to alter, amend or foreclose this promotion without prior notice.
