

# EE TV, BROADBAND AND HOME PHONE CHARGES

## PRICE GUIDE

prices effective 1st September 2015

# HOW YOUR CALLS ARE CHARGED

- All prices shown include VAT.
- A 15p call set-up charge applies to all non-inclusive calls, unless calls are charged at a fixed rate per call, or for calls to service numbers (see below)
- Calls will be rounded up to the nearest full minute, excluding fixed fee calls, those that are free, or for calls to service numbers (see below)

- **Charges to service numbers (beginning 084, 087, 09 and 118) are split into 2 parts:**

- 1) Access Charge – this is how much EE will charge you per minute for making the call, and is 11p/min. Please note that the EE access charge for your landline calls will differ from our mobile access charge. This is billed per second, with a minimum one minute call charge
- 2) Service Charge – this is the amount that is charged by the organisation you are calling. The amount of the service charge is set by them, and should be stated anywhere their number is advertised. This is billed per second, per call, or as a combination of both

- The applicable service charge for all eligible number ranges, and the associated cost of that service charge, can be found in this document
- To find out the total cost of your call, you'll have to add the access and service charges together. These will be shown on your bill as a combined charge for each call; the access charge will also be printed separately on your bill for reference
- Inclusive calls (eg on an anytime, evening and/or weekend package) include the access charge to numbers beginning 0845 and 0870; but not the applicable service charge which you will have to pay. The service charge is set by the organisation that you are calling
- To find out more, visit [www.ukcalling.info](http://www.ukcalling.info)

- Inclusive calls are subject to a 60 minute maximum duration per call. To continue making inclusive calls simply hang up and re-dial.
- Prices are effective from 1 September 2015.
