

# EE BROADBAND, TV AND HOME PHONE CHARGES

## PRICE GUIDE

Prices effective 1st August 2021

## HOW YOUR SERVICES ARE CHARGED

- All prices shown include VAT
- A 23p call connection charge applies to all non-inclusive calls to UK Landlines and UK Mobiles
- A specific call connection charge applies to all other non-inclusive calls, unless calls are charged at a fixed rate per call, or for calls to service numbers (see below). See this Price Guide for further details of the charges which apply to each type of call

- Calls will be rounded up to the nearest full minute, excluding fixed fee calls, those that are free, or for calls to service numbers (see below)

- **Charges to service numbers (beginning 084, 087, 09 and 118) are split into 2 parts:**

1) Access Charge – this is how much EE will charge you per minute for making the call, and is 11p/min. Please note that the EE access charge for your landline calls will differ from our mobile access charge. This is billed per second, with a minimum one minute call charge.

2) Service Charge – this is the amount that is charged by the organisation you are calling. The amount of the service charge is set by them, and should be stated anywhere their number is advertised. This is billed per second, per call, or as a combination of both

- The applicable service charge for all eligible number ranges, and the associated cost of that service charge, can be found in this document
- To find out the total cost of your call, you'll have to add the access and service charges together. These will be shown on your bill as a combined charge for each call; the access charge will also be printed separately on your bill for reference
- If you call 0845 or 0870 numbers at any time we'll cover the cost of the EE access charge; but not the applicable service charge which you will have to pay
- The service charge is set by the organisation that you are calling

- Inclusive calls are subject to a 60 minute maximum duration per call. To continue making inclusive calls simply hang up and re-dial
- Prices are effective from 1st April 2021
- Terms and conditions apply to EE Home phone services. Visit [ee.co.uk/terms](http://ee.co.uk/terms)

## HOW YOUR SERVICES ARE CHARGED - DATA

### **What do you mean by data usage?**

We measure how much data you use in kilobytes (KB). Data is based on the following units:

- 1024 bytes = 1 Kilobyte (KB) (equivalent to reading 2/3 paragraphs of text)
- 1024 KB = 1 Megabyte (MB) (equivalent to about one hour of instant messaging)
- 1024 MB = 1 Gigabyte (GB) (equivalent to about five hours of watching YouTube)

We send data across our network in packets no bigger than 1.5KB. A packet is just a unit of data.

Data usage is all the data that's been sent or received. Upstream is where data is transferred from your device to the internet (uploading). Whereas downstream is from the internet to your device (downloading).

We calculate your data usage based on the amount of data that travels over our network both upstream and downstream, which may be different from the data your device consumes.

Your data usage will also include additional data packets which control the flow of data over the network and may also include data packets which have to be re-sent over the network, for example if you're in an area with poor coverage and your connection drops off.

When content providers state the file size of their content, it may take up a little bit more of your data to download that file. This is because of encryption and addressing data which can be up to 10 per cent of the total file size. For instance, if an image is said to be 100MB, it may take up to 110MB of data to download that file to your device.

CALL PLUS ADD-ON - £5.22 PER MONTH	
Feature	Description
Call Divert	Lets you divert your incoming calls to almost any phone, including your mobile. You can also divert calls while your phone line is in use
Call Waiting	Tells you when other callers are trying to get through, while you're already on the phone. You'll hear a short beep and can then choose whether or not to take the call
Ring Back	Removes the frustration of having to keep redialling an engaged number. If you make a call to an number that's engaged, simply dial '5' and Ring Back will call you when the number becomes free
Choose to Refuse	Helps you put a stop to nuisance or unwanted calls by stopping them from getting through to you. You can block up to ten numbers (some numbers are excluded from this service)
Reminder Call	Acts like an alarm clock on your phone - your phone will ring at the time you program it to. Maybe you need a repeat reminder every day, or perhaps you need a one-off call to remind you to do something. You push a couple of buttons to activate the service and then enter the time and date you want to be reminded. Amending a Reminder Call is just as easy
Anonymous Call Rejection	Lets you stop calls from people who have withheld their number. If a caller withholds their number so that you can't tell what number they called from, they won't be able to get through to you. They'll only get through if they reveal their number.
3-Way Calling	Invaluable when three callers need to join a conversation. It's quick and easy conference calling - all three of you can have your say and there's no need to make multiple calls

# EARLY CANCELLATION CHARGES

Early cancellation charges apply when you cancel your EE Broadband plan while still within your minimum term. Your early cancellation charge depends on what broadband plan you are on, the value of any discounts you have, and how many months you have left in your minimum term.

## How do we calculate Early Cancellation Charges?

1. We add together all outstanding monthly (or other periodic) charges, excluding VAT. If you have a monthly recurring subscription discount, we will take that into account
2. We then reduce the charge to take account of any costs we save as a result of you leaving early, such as wholesale costs where applicable
3. We then take off 4 per cent for early receipt
4. We then multiply this by the remainder of your minimum term
5. And finally we add VAT at the prevailing rate to get the final cancellation charge.

**Example 1:** you are on the Standard Broadband plan at £31 a month, with a £12 monthly recurring discount, which means you are paying £19 a month. You cancel with 2 months left in your minimum term;

We take off VAT - £15.83

We take off the costs we save (for example £10.49 per month) leaving £5.34

We then take off 4% for early receipt, making £5.13

We multiply this by the 2 months to get £10.26

Finally we add VAT to get a cancellation charge of £12.31

**Example 2:** you are on the Fibre Broadband plan at £36 a month, with an £11 monthly discount, which means you are paying £25 a month. You cancel with 6 months left in your minimum term;

We take off VAT - £20.83

We take off the costs we save (for example £13) to get £7.83

We take off 4% for early receipt, making £7.52

We multiply this by the 6 months to get £45.12

Finally we add VAT to get a cancellation charge of £54.14
